Via fax # : 212-645-9236

Dear Sir or Madam,

In response to your recent notice on your company website (www.ttengineers.com) I have enclosed my resume for your review and consideration for the Student Internship Program this summer.

I am a recent graduate with hands-on experience within the electrical/construction industry and I would like to utilize that experience in a position of electrical engineer.

My previous work experience consists of electrical design for multi-family apartment buildings, private residences and commercial structures. I was typically responsible for the development of design and construction documents, coordination with architects, field verification and coordination of all documents.

During my studies at the university I completed an internship at Opole Power Plant (Elektrownia Opole) working as the Project Manager Assistant during installation of new turbine and upgrade of old transformers.

I am very keen on working with LZA Associates and look forward to meeting with you to further discuss my qualifications. Should you require more information please do not hesitate to contact me.

Sincerely,

Robert Piskorski
